

Deluxe Moisture Test Kit

M70-KIT All-in-one

The Instrument for measuring moisture content in materials.

Kit Includes :

1. M70-D Digital moisture meter
2. No.704M Protection cap
3. No.7021 Pin-type probe
4. No.7022 Roller-type probe
5. No.701P Replacement electrodes
6. No.7029 006P9V Battery
7. No.766C Plastic Carrying Case
8. Multi-Lingual User's Manual

Specifications of M70-KIT

Measuring Range	5.5 to 99.9% H ₂ O%WME
Operating Range	-20 to +50°C, <90%RH
Resolution	0.1%
Sampling Rate	Approx. 0.3 sec.
Data Memory	99 Readings
Display	LCD display with backlight
Wood Group Scales	8 types of Wood groups build in
Signal Output	Analog DC 0~1V (10 mV/1%), Load >500Ω
Calibration	Built-in calibration adjustment
Power Source	One 9V battery or AC adaptor (Option)

Dimensions of Probe ※Can be customized.

NO.7021 Pin-type probe	Electrode Length=13 mm, Cable Length=1 meter (NO.7021 with Protection cap)
NO.7022 Roller-type probe	Length=230 mm, Cable Length=1 meter
